

I have owned at least two xm radios since they first hit the market several years ago. I can count on one hand how many times I have listened to fm since. Why should I not be entitled to having traffic and weather because I choose to listen to a far superior COMMERCIAL FREE form of radio. This country is becoming a communist country more and more everyday. I'm paying for a service and you people, and politicians, are making new rules with every passing day to tell me what I can and can't do - now what I can and can't listen to . This is ridiculous. My business relies heavily on the weather, and I am in and out of my truck all day long - Nobody broadcasts the weather all day on FM - and I wouldn't listen to it if they did. That's why I PAY for XM !!!!!!!!!!!!!!!
